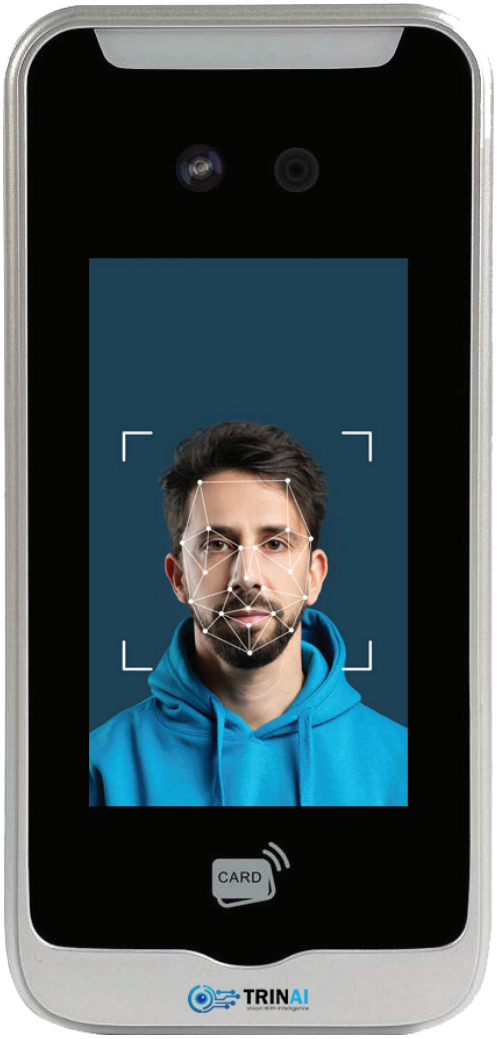
TRINAI
Vision With Intelligence

AI-Based Face Recognition Terminal



5000 Face

Mask Detection

RFID

Touch Screen

QR Code

Model no: TrinAI-TN50

key features

- AI engine for fast and accurate face recognition
- Dual HD camera (IR + RGB) for spoof detection
- Touch screen-based user interface (5-inch)
- High-performance embedded Linux system
- Real-time user verification in under 1 second
- Works under challenging lighting and environmental conditions
- Scalable for large user databases
- Ideal for public service, telecom, financial, and access control applications
- Support Aadhaar Authentication

DATA SHEET

TRINAI
Vision With Intelligence

Specifications	
Model Name	TrinAI-TN50
Display	5-inch Capacitive Touch Screen
Face Recognition Capacity	5000 Faces
Face Recognition Speed	< 0.2S
Camera Type	Dual Camera – RGB + IR
Spoof Detection	Enabled (with IR camera)
Operating System	Embedded Linux
Processor	1.2G Dual Core ARM Cortex-A7
RAM/ROM	256M DDR3L / 4G EMMC
Connectivity	Ethernet, Wi-Fi, Optional 4G LTE
Live Face Detection	Reject Photo and Video
Communication Interface	RS485, Wiegand, USB, TCP/IP
Audio	Built-in Speaker for Voice Prompts
Power Supply	DC 12V / 2A
Temperature Range	0 to 45°C
Verify Method	Face Recognition,ID card or password
GPS	optional
